

RESOLVE MINING CONSULTANTS (Pvt.) Ltd

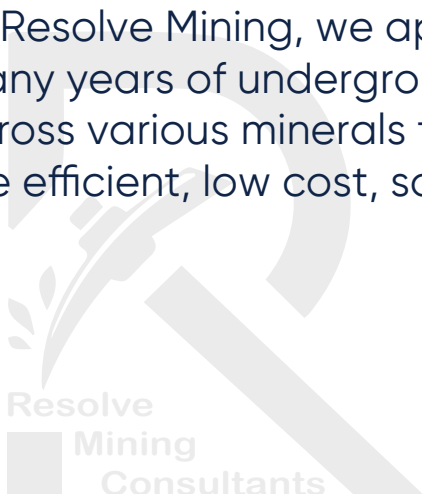

COMPANY PROFILE

BACKGROUND

Founded in 2022, Resolve Mining relies on experts that have extensive technical knowledge and proven experience in mining development and production, surface and underground exploration, mining construction, environment and safety management.

At Resolve Mining, we apply our front-line experience earned over many years of underground and open pit mining and exploration across various minerals to resolve mining problems. We offer solutions that are efficient, low cost, safe and real-time for long term benefits.

To become a leading multi-disciplinary mining consultancy in Africa.

VISION

To be the preferred mining consultancy partner that applies front-line experience, knowledge and modern technology to resolve mining challenges and achieve sustainable growth for our clients and stakeholders.

MISSION

Surface and Underground Exploration
Underground Mining Development
Major Mining Construction Work
Trackless Mobile Machinery
Mining Feasibility Studies
Mining Production
Rock Support

SCOPE OF WORK

Mining Development & Production

We are contract mining specialists in Life-of-Mine,, Run-of-Mine and Critical Development.

At Resolve Mining, we have the capacity to efficiently carry out all or part of drill, blast, load, haul and dump activities as contractors at exceptional efficiencies.

Exploration

We offer a wide range of geological services on contract basis. The services include magnetic surveys, geological and structural mapping, induced polarisation and radiometric surveys, trenching, diamond drilling and deep drilling.

TMMs

Through partnerships, Resolve Mining offers optimum waste and ore movement services via applicable tailor-made Service Level Agreements (SLAs) for both underground and surface mining.

Feasibility Studies

The multi-disciplinary team of experts at Resolve Mining has extensive mining project management experience to conduct scoping, conceptual and bankable feasibility studies as applied to greenfield brownfield and other ramp-up projects.

Mining Construction

Our experienced crews are capable of mining and constructing major grizzlies, underground crusher chambers and underground Trackless Mobile Machinery workshops within set project timelines.

Additionally, our crews are capable of carrying out major shaft infrastructure rehabilitation and repair work that enhances shaft availability and utilisation.

Rock Engineering

We install all types of underground rock support systems.
